Slovenian Nurse Exposes Politicians Getting Saline Placebos and There's a Way to See What you Got, Real or Placebo

During the conference, the nurse said about 30% of the general population also receive a placebo saline solution while 70% receive the real thing but categorized in 2

branches, one toxic and the other highly toxic. She showed codes on the bottles where each contains 01, 02 or 03 digits, and then explained the meaning of those numbers.

This is the video with the Slovenian nurse censored by facebook

Number 01 is the placebo, saline solution which all politicians receive and 30% of the population.

Number 02 is a the mRNA spike protein. This is a toxic jab, the spike protein itself is a highly toxic poison as exposed by numerous scientists. One example being a South African doctor who treated thousands of patients.

Number 03 is an mRNA stick that contains the onco gene, linked to the adenovirus that contributes to the development of cancer. She said those receiving the number 03 bottle will develop soft tissue cancer within 2 years of receiving the jab."
